The Best
Just Got Better

The best just got better with Clipsal's eDLT. With the ability to customise the colour of the display and buttons, advanced device control and intuitive functionality, the eDLT offers fantastic features and benefits that will enhance and complement your lifestyle.

The eDLT provides sophisticated and user-friendly control of your C-Bus System with innovative features such as dual action buttons, high resolution colour screen and status information like temperature and time. Put simply, the eDLT is Australia's most advanced wall switch.

Stunning Design. Complete Control.

Clipsal's eDLT offers a contemporary design that will complement any modern interior.

It's clean architectural lines and glass or metallic fascia create a visually stunning wall switch. The ability to control up to 16 devices, eliminates the "clutter" associated with multiple wall switches, simplifying the control of your home from one stylish unit.

Complementing this, the high resolution colour screen and LED indicators can be customised to match your interior decor or provide a striking accent of colour – creating a touch of enviable style in your home.

clipsal.com

Colour Selection

The Clipsal eDLT is available in a selection of colours to complement any home or building interior. Colour options include:
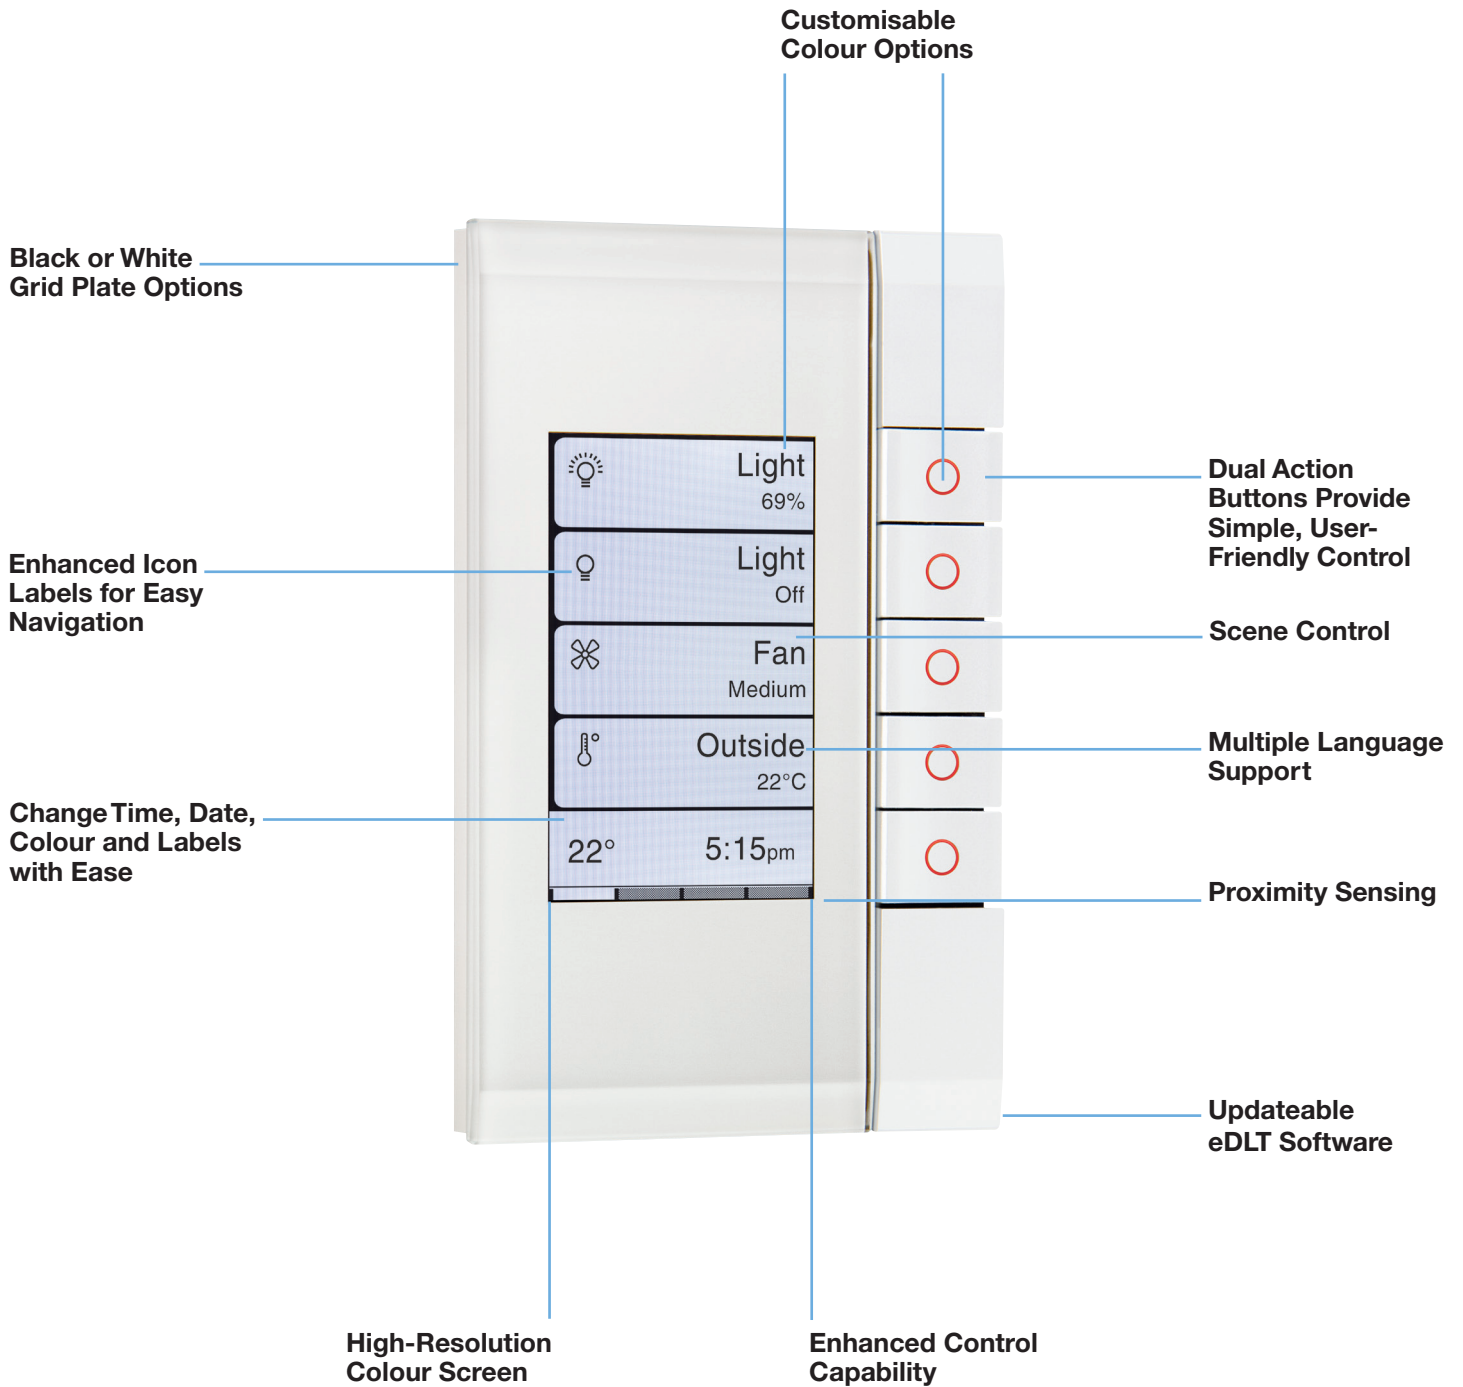

- Pure White (PW)
- Ocean Mist (OM)
- Espresso Black (EB)
- Stainless Steel (SS)
- Horizon Black (HB)
- Cream (CM)
- Brown (BR)*

* These colours are made to order

Customisable Colour Options

Select from eight colour options to customise the screen and buttons to suit your style. The eDLT can also indicate system information for you, such as high energy use (red) or security disarmed (green).

Enhanced Labelling

Enhanced icon labels conveniently provide clear information at a glance, such as light dimming levels or audio system volume. View the status of all your control commands with ease.

High-Resolution Colour Screen

The high-resolution eDLT screen provides enhanced colour and contrast. With an extensive selection of colour options and combinations, you can customise the eDLT to suit your personal style and interior décor.

User-Friendly Dual Action Buttons

Operating the eDLT couldn't be easier. Dual action buttons provide user-friendly control of elements such as volume up/down, dim up/down.

Enhanced Control Capability

The eDLT replaces the need for multiple wall switches, and provides you with up to 16 control functions in one stylish unit.

Scene Control

The eDLT simplifies living by integrating multiple technologies around your home to work in unison at the touch of a button.

For example; a "Movie" scene for your home theatre could dim the lights, turn on the projector and lower the screen; or a "Goodnight" could scene could conveniently turn off all the lights in your home from the comfort of your bedroom.

Proximity Sensing

You'll never be left in the dark with the eDLT. As you approach a sensor recognises your presence and wakes the switch from standby.

When no movement is detected, the eDLT will fall back into standby mode and display essential information such as time, date and temperature in an easy-to read large format.

Make Changes with Ease

You can make small changes to the eDLT with ease. Elements such as time, date, colour, and labels can all be changed by following the simple instructions in the "Tools" page.

Updateable eDLT Software

The eDLT can be easily updated as new software features are developed – so you can always keep up-to-date with the latest technology.

Multiple Language Support

Alternative languages to English can be selected on the eDLT switch.

The eDLT supports an extensive range of words, symbols and characters from multiple languages.

Black or White Grid Plate Options

Black or white grid plate options allow the eDLT to perfectly blend with your surroundings.

Or if you want it to stand out, choose a contrasting colour to create a striking design feature.
